FOUR LOSE LIVES WHEN IN BATHING

Two Sisters Drowned in Beaver
Creek Near Hanley,
Saskatchewan

FATALITY AT LANGHAM

A. J. Wells, Manager of Bank,
Carried Away by Current—
Youth Drowned at Calgary

Hanley, Sask., July 18.—Alice and Emma Kitching, daughters of Mr. and Mrs. George Kitching, were drowned yesterday afternoon. The girls, accompanied by the two daughters of Robert Wilson, went bathing in Beaver Creek. Alice and Emma went into the water first, and in spite of the warning of Grace Wilson, moved towards deeper water. None of the party could swim and Grace Wilson relates that first Emma and then Alice Kitching got beyond their depth and sank. The bodies were recovered but the most strenuous efforts could not resuscitate them.

Drowning at Calgary

Calgary, July 18.—Tempered by the intense heat to bathe in the river Elbow, thought not confident of his ability to swim, Jens Jansen, aged 21, a teamster from Olds, boarded at 251 Eleventh avenue west, was drowned yesterday morning despite the heroic efforts of two friends, Gals Larson, of 251 Eleventh avenue west, and James Allen of the Albion hotel, Rotherly, fell below them, to rescue him. The body was discovered twenty minutes later with ropes, but artificial respiration failed to resuscitate him.

A. J. Wells Drowned

Langham, Sask., July 18.—A. J. Wells, manager of the Northern Creamery Bank at Langham, was drowned yesterday while bathing in the Saskatchewan river, he got caught in the swift current and sank immediately.

Professional Diver Drowns

Brookville, Ont., July 17.—Chas. Oropeter, better known as "Buck the Diver," and a familiar character in all the towns and villages on each side of the river between Kingston and Montreal, took his last plunge into the St. Lawrence at the waterworks dock yesterday.

During the past few weeks he had been engaged in recovering lost property from the river bottom of that locality and is supposed to have been seized with heart failure of cramps. After being down for two minutes, where the water is thirty feet deep, he was seen slowly rising to the top. At his head reached the surface he turned over and sank as quickly as he came up.

COAL IS REACHED AT BAWLF MINES

Is of Extra Good Quality and
Town Is Naturally
Delighted

Bawlf, July 18.—On Saturday last, after several days of hard drilling through a bed of hard sandstone, every foot of which required dynamite, the workmen at the mines reached the first seam of coal and the night shift succeeded in uncovering the coal. Samples of the coal were brought up and examined eagerly by the many visitors who came out to see with their own eyes what they have been waiting for in eager expectancy.

Several large pieces were brought to town and are now on exhibition in the window of the Bawlf Collieries, Limited.

Some of this coal was used in the furnace of the hoisting engine at the mines and the way it burned was a very marked contrast to the other coal which has been used, making a heat so intense that the safety-valve blew off continuously with the damper entirely closed and while the engine was being used in hoisting. Inspection on then on—

The hard layer of sand stone just above the coal bed is one of the most valuable assets to the town of Bawlf and there is at present only an inflow of water enough for the requirements of mining.

YOUTH ARRESTED FORGERY CHARGE

James Bailey Taken Into Custody
By Local Police on Four
Charges

ACCOMPLICE CAUGHT, TOO

Police Wired to St. Boniface and
Had Alleged Confederate
Arrested

James Edward Bailey, a young man, aged 21 years, is in the toils here on charges of forgery, while his accomplice, J. Parry, has been arrested at St. Boniface, Manitoba, at the request of the local police. Bailey was arrested on Saturday afternoon.

Bailey gave himself away in a peculiar manner. On Saturday he cashed a check at the Edinburgh Cafe, First street, for \$5, buying a meal ticket for \$4, and taking the balance in cash. In the afternoon he evidently became alarmed, so he returned to the cafe and asked for the return of the check, admitting that he thought it was no good. He received the check, but the proprietors of the restaurant notified the police and he was arrested.

The similarity of the writing on the check and of the writing on three other checks in the possession of the police has convinced them that Bailey was responsible for all. His other checks were cashed at the Hudson Bay store, the Hill Clothing Co., and Chas. Hall, grocer, Seventh street and Jasper, for amounts of \$10, \$20 and \$25, respectively. These checks were signed J. Parry and the police allege that Bailey wrote the checks for the former, cashed them.

By cross-questioning Bailey the police discovered the whereabouts of his comrade and wired the St. Boniface police to take him into custody.

"FUTURE CHICAGO OF NORTHLAND"

Hon. Jacques Bureau, Solicitor
General of Canada, Praises
Edmonton

A number of the leading citizens entertained the Hon. Jacques Bureau, Solicitor-General of Canada, at a banquet in the King Edward on Saturday evening. Mayor Lee was in the chair and amongst those present were Attorney General Mitchell, Hon. C. W. Ross, J. L. Cote, M.P.P., J. K. Cornall, M.P.P., Aids. Garfield and Landy, Jas. McGeorge, Geo. Roy, J. H. Picard, J. H. Garfield, D. H. McKinnon, John Blue, and J. Royal.

The Toasts were Many

Following the dinner the toasts were proposed:
"The King."
"The Province," replied to by Hon. C. R. Mitchell.

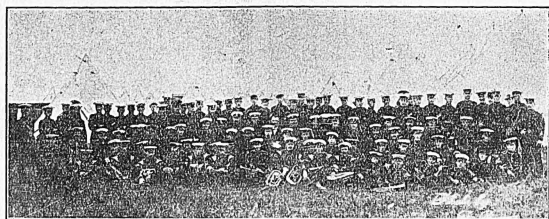

"Our Guest," replied to by Hon. J. Bureau.

"The Pioneers," with the "City of Edmonton," which last was responded to by Mr. C. W. Ross and Aid. Garfield.

The reply to "Our Guests," by Hon. Jacques Bureau, was eloquent in its tribute to the importance of Edmonton as a distributing centre, "Edmonton," he said, "is bound to become the Chicago of the north, the double funnel through which supplies must pass to the great north-west, the great west, the development, and through which the great wealth of the north must pass to reach the markets of the world."

Likes Edmonton
With regard to the city itself Mr. Bureau said he was greatly pleased with the lighting system on the main street, a system which was only in vogue in another city to his knowledge—that of Seattle. He also referred to the excellence of the telephone system.

J. Cornall, M.P.P., responded to "The Pioneers," with an account of the Peace River country, and a sketch of its gradual development to the present day. Shortly before 10 o'clock the function terminated with "God Save the King."

In the centre is seen Dr. Riddell, chaplain of the regiment, and the officers. The band is seated in front. In the background may be seen the tents of the tents. The men all report a good time and are enthusiastic over the brief outing. (Photo by F. Rogers, Edmonton.)

FUSILIERS HAD WORK AND FUN IN THE CAMP AT COOKING LAKE

A Little Bit of Military Life Under Peaceful Conditions
—Sham Fight, Tactics, Church Parade and Lots of Boating and Bathing.

(By a Staff Correspondent.)

Cooking Lake, July 18.—Fine weather has luckily attended the camp of the 101st Fusiliers at Cooking Lake and everything has gone most satisfactorily—a good camping ground, good outfit, excellent food, bathing, boating and a band, as well as some useful training—the 101st may be congratulated on having as good a camp as one could wish for. If the high spirits of the men who left camp on Sunday night count for anything, they certainly must have enjoyed themselves to the utmost—their only regret being that they were unable to stay until Monday night.

Good Situation

The place chosen for the camp was an ideal one. In a meadow on the edge of the lake, opposite Crescent Island, the tents were pitched—twenty-one of them and three marquees, in three straight rows, fitted with smiling, sunburnt soldiers, glad to get away from the sweltering heat of the city to the joys of life under canvas.

At 8 o'clock on Saturday morning the regiment assembled in the Army and headed by the band, marched to the C. N. R. depot in time to catch the 9:30 G.T.P. express which arrived at Cooking Lake at 10:30. The journey down was uneventful and on arrival at the lake the regiment formed up on the railway track and marched for about a mile from the water tank, then turned down towards the lake, which brought them to camp.

Camp was at all in readiness when the Fusiliers arrived; for which the advance party which went down on Friday, must be credited. A word of praise must be said in regard to the work of this advance party. As everyone will remember, Friday was one of the wettest days the Alberta has seen this season and in the midst of this drenching rain, seven men put up the camp of twenty tents and three marquees, got the cook tent up and settled and generally put the camp in readiness for the main party which arrived on Saturday morning.

Had Some Manoeuvres

Dinner being over, the programme

for the afternoon was outlined and shortly afterwards carried into effect. The regiment was divided into two portions and an attack on camp was made by one portion under the command of Capt. Carpenter, while Capt. Osborn with the remainder, defended the position.

The fight in itself was an interesting one, but owing to the small number on each side, the details of the scheme were rather hard to follow.

The attacking force marched about one and a half miles out of camp and then taking cover in the bush which is rather dense at this point, proceeded to advance on the camp. The spectator on a hill would witness a scene which was realistic in the extreme—little sparks of smoke followed by the sharp crack of the rifles, were seen coming as it were, of their own accord from the firing lines in cover in the bush, and ever changing their positions, as the attacking force crept up, the first warning of their new positions being the little puffs of smoke.

Capt. Carpenter of the attacking force, by using a small portion of his men under Capt. Wat on a prominent hill, who were to give the defenders the idea that they were the main body, performed a rather clever manoeuvre and took his main body up a ravine leading towards camp, thereby surprising the defenders and getting between some of them and the camp.

After the field work was over Col. Edwards called the regiment together in one of the marquees, and there received the reports of the officers engaged in the fight and explained to the men the tactics used in the attack and gave them the general idea of the work of companies.

Changing the Guard

At 6 o'clock p. m. the ceremony of changing the guard was performed. A guard of eight men and a sergeant was turned out and inspected by the colonel, after which the old guard was relieved and the new guard occupied the guard tent, supplying the sentries.

WILL HAVE CIVIC HOLIDAY ON DAY LAURIER IS HERE

The civic committee which has charge of the arranging of the reception of Sir Wilfrid Laurier had a meeting in the city hall this morning with Mayor Lee in the chair. It was decided that a recommendation be sent to the council appointing the day on which the prime minister will be here, August 6th, a civic holiday.

In regard to the details of the reception it was arranged that Aid. Garfield would have charge of the parade arrangements, while Aid. Landy will look after the decorations. It is likely that a guard of honor will be picked from the local militia to escort Sir Wilfrid through the city, while many societies and associations will be represented in the parade. There will also be a number of floats.

It has not yet been definitely decided what form the decorations will take but there will at any rate be the usual display of flags and banners. It is not unlikely that an arch of welcome will be erected in some appropriate and conspicuous place.

The civic programme will cease at six o'clock and then all the Liberal Clubs will have charge of the entertainment of the prime minister.

GET LICENSE AT ENTWISTLE

Commissioners at Meeting This Morning Grant One License

The license commissioners at their meeting in the city hall this morning discussed only two applications. The application of the Pembina Hotel at Entwistle was allowed while the case of the Royal George Hotel was laid over for further consideration.

POULTRY RAISING ON A LARGE SCALE

What May Be Done in Alberta
Along This Line Already
Shown

It is safe to say that one of the future industries of Alberta will be the establishment of huge chicken ranches, and the raising of poultry on a large scale to supply the rapidly growing towns and cities of the Dominion and more particularly the Western provinces.

An example of what may be done in this line is the farm of Messrs. E. C. Dobell and W. W. Howe, which has just recently been established about two miles southeast of the city. The farm consists of 80 acres of the finest soil and is already stocked with about 800 chickens of various breeds.

Conditions Are Ideal

Mr. Howe has had unlimited experience in the raising of poultry having engaged in it as a hobby in the old prairie. The first time, however, that he has commercialized it, and he states that he is very optimistic for the future as he believes that conditions for poultry raising in this country are ideal. This poultry ranch is but in its infancy yet, although it requires the attention of several men to manage it. In a very short time the hatchery population of the ranch will be greatly increased and will be a splendid example of what the north country can do along the line of chicken raising.

Correspondent of London Times
Airs His Views on French's
Report

SAYS IT WILL CONDEMN

Thinks Criticisms of General
French Will Disclose 'Bad
State of Affairs

London, July 18.—The correspondent of the Times understands that when General Sir John French's report is published it will disclose a state of military inefficiency in the Dominion that will probably be a revelation to most Canadians.

The correspondent of the Times says: "I believe it will be found that General French in the first place condemns the whole existing conception of strategic requirements in the Canadian militia. This is coupled with the non-existence of a sound peace organization and an effective staff."

Are in a Bad Way

He suggests that from the very outset the Dominion defence forces are in a bad way. If such a staff exists and does not understand the first principles in the strategic distribution of its forces then it is impossible for it to have a sound peace organization.

The writer thinks, however, that although French may rubbly condemn what Canadians thought good, yet he will furnish them with a model on which it will be possible to build quickly and surely, as General French is highly impressed by the material, intelligence and robust earnestness of the Canadian forces.

THREE CENT FARE CAUSES DEFICIT

Cleveland's Cheap Fare Rule
Loses \$78,828 in Four
Months

Cleveland, O., July 18.—A deficit of \$78,828 is declared by the Cleveland Street Railway Company today after four months' operation under the 3-cent fare rule. The report of the company for the month of June shows a deficit of \$48,027. The directors adopted a resolution to borrow \$250,000 to meet pressing obligations.

The street railway system was lifted out of a two-year receivership on the first of March and handed back to the original company to be operated on a three-cent fare basis. A profit was shown on the first month, but since then there has been a steadily growing deficit.

KENTUCKY STORM SWEEP HALF CROPS ARE LOST

Louisville, Ky., July 18.—For the second time in three years Kentucky was swept by highly destructive storms yesterday. Crops were torn out of the ground and the wind and hail storms dashed vegetation to pieces and sent streams out of their banks. The damage to the crops is estimated at fifty percent, wheat suffering the most. One death caused by the floods has thus far been reported.

Dr. T. T. T. Tells of University
Plans — Dormitories to Be
Finished by September

Dr. T. T. T., president of the Alberta University left Saturday night for Nova Scotia, where he will spend six weeks on a much needed holiday. Dr. T. T. T. has been very energetic during the past spring and winter, having done, besides teaching, all the executive work, and also kept in touch with matters connected with the construction of the new buildings.

Dr. T. T. T. is the first to the Capital in his state room on the C. N. R. train prior to its moving out of the station. He spoke on general matters connected with the university, and stated that a new senate would be elected in October. Asked about the progress of construction, Dr. T. T. T. said that the dormitories would likely be completed by September.

HICKEY PITCHED WINNING BALL ESKIMOS TOOK SERIES

Score in the evening was 4-1. Not a hit registered off Hick until the sixth. Bad accident.

The Saturday evening game was as different from its predecessor as day is from night. During the sunning period of the afternoon, the fans were served with a pot pourri of everything that is good, bad and indifferent in baseball lore. But what a difference after dinner.

Jack Hickey, the Vancouver pench, was on firing duty, and he looked awfully good to the fans. He had splendid control, his curve balls were breaking nice and in addition he received perfect support. Hick also gave a perfect exposition of how a pitcher should fight his position, a number of his one-handed stabs bordering on the sensational. For six innings he held the visitors without a hit, but after Crocker had broken the spell, the Eskimos came in a little as the game was already in cold storage. He only allowed a total of five hits which yielded four runs.

Starkell was hit hard, but at that didn't do too badly. A couple of errors got him in bad. Edmonstone collected ten hits off the side wheelers, divided among five players. Pete Morse and Quigley were the supreme swatsmiths, both having three, while Mills was chief deputy with a pair. Baxter and Spencer collected the other two.

The fielding was fast as three double plays will show, two going to the credit of the Robin Redbreasts.

The game was slightly marred for the spectators by an awful accident that befell Baxter. Morse swung on one of Smith's shots and in some unforeseen manner got hit on the finger. The unfortunate batter started to take his base, but umpire Ferguson, with heart of adamant, forced him back, and pronounced him a foul ball. Morse was highly indignant. He showed the finger to everybody within a radius of four miles and was starting up town to exhibit the evidence to the Police magistrate when Perry yelled "Play ball." A safe hit a moment later told a lot to heal the hurt, but still we reiterate "it was some injury."

The game was scoreless up to the end of the fifth innings, when the Eskimos forced two runners across the injury-ridden. Another following in the sixth, and still another in the eighth. The visitors got their lonely tally in the ninth.

Umpire Ferguson had recovered from his indisposition of the afternoon and performed quite nicely. He

aroused a storm of laughter when he got in the way of a peg to second. Why does everybody laugh when theumps get hurt? And, Moose Baxter hurt his finger—O judge! We told about that before, didn't we?

They Take Their Corner.

Jones fled to Moose Baxter who was galavanting in pastures new, centre field to wit, Heavy Irbly fled to Cox, running over to the Moose Jaw bench, Spencer picked off Crocker's foul fly.

Crocker couldn't get Mills hit over second base, and Baxter sacrificed. When Davis felled the hunt, Mills made for third, but both men were ner did at first. Irbly did via third, and Miller scored. Brennan out, Hickey to Smithson, who covered first.

Hurley and Davis out on grounders to the infield, and bell firmed.

Spencer drew four wide ones and Quigley sacrificed him to second. Chesty fled to Bell and Hickey grounded, Bell to Hurley.

Elsy stuck his shoulder in front of a homer and walked to first. Bliss fled to Quigley, and Elsy was doubled at first. Smithson fanned.

Doctor Wanted at Once.

Deacon out, Jones to first and Mills struck out. Moose, after petting his finger terribly smashed and being received a base, proceeded to knock out a single. The battle scarred veteran was caught stealing.

Hickey made a one-handed stab of Jones' high bouncer and the runner did at first. Irbly did via same route, while Crocker fanned.

Morse binged a slow one on the nose into Crocker's mitt. Elsy felled Brennan's skyscraper, and Spencer popped to Hurley.

Hurley was disposed of. Morse to Deacon. By fast fielding live-out got Davis on a nice peg to first. Deacon picked Quigley's throw out of the dirt and Bell was third out.

We Break the Ice.

Irbly misjudged Quigley's short fly and the Eskimo captain reached second. Smithson in an attempt to get Quig off second hit the runner and the ball rolled in the field. Third base was gained and Quigley scored on Chesty's sacrifice fly to Irbly. Hickey high-flied to Jones and Deacon perambulated and purloined second. Robb Mills singled to second, and Deak tore — the dust from second to home on the hit.

Score by innings.

PROMINENT IN ATHLETICS

Bell threw at Baxter at first. Two runs. Elsy laid one down in front of the plate, and Stub bowled the ball to first in time. Ovals! Bliss fled to out gardener Moose. Smithson was hit and Mills by a fine run caught Jones fly. Only to men have faced Hickey in six innings.

Morse hit sharp over the sack and stole second amid some slight acrobatics on the part of Old Bill Hurley. Brennan fled to Elsy, Stub hit to Bell, and the visiting short stop tried to bluff theumps into thinking it was a catch, but all hands were safe. Quigley and Morse pulled off the squeeze, the former scoring. Chesty hit a double play, Bell to Jones, to Hurley, Quigley being the other victim. One run.

Irbly started the seventh by flying to Baxter-Crocker, the first pass from Hickey, and Hurley followed with the initial Robin Hood safe hit, Davis fled to centre, and Hickey by fast fielding cut off Bell at first.

Quigley and Morse pulled off the squeeze, the former scoring. Chesty hit a double play, Bell to Jones, to Hurley, Quigley being the other victim. One run.

Irbly started the seventh by flying to Baxter-Crocker, the first pass from Hickey, and Hurley followed with the initial Robin Hood safe hit, Davis fled to centre, and Hickey by fast fielding cut off Bell at first.

Unlucky Perry.

MINTO CUP WILL STAY IN WEST

Montrealers Were Beaten in the First Game by Onesided Score of 10-4.

New Westminster, July 18.—As was generally expected, the Salmonbellies defeated the challenging Montrealers in the first game for the Minto Cup by 10 to 4. The eastern home was held safe by the locals defence, while the Montreal defence had no terror for the Westminster star home field.

GOOD-BYE, QUIGLEY

Jack Quigley, second sacker of the Eskimos received his unconditional release yesterday, and Manager White will hold down second base until a high-class regular is signed up.

Quigley came here from Vancouver, heralded by a large reputation, but at no stage of the game has he lived up to expectations. His sick work has been erratic and even in the field his work did not satisfy his manager or the fans.

Deacon has lines out for live second baseman who will be here before the team takes the road next Monday.

Baseball of 57 varieties was served at a carte at Diamond Park on Saturday afternoon and when the repast was finished Moose Jaw had to pay the waiter's check. It pains us to narrate that for a time our chances for winning looked as slim as Capt. Cook's for heaven, but by dogged perseverance and bulldog tenacity and several other things too numerous to mention the Eskimos kept plugging along and finally won by 4-5.

Jack Grady started pitching and got along all right for a time, despite the fact that several of his teammates seemed to be in a trance, both at the bat and in the field. With the score 4-0 in the visitors' favour, Dell was sent in and pitched the best game he has done yet. Slim held the Robins to one run in six innings and was almost unshakable. His advent was like setting off an alarm clock among the Eskimos. They awakened up immediately and hardly seemed like the same team that had worried through the first three sixties.

Brown, who was in the big league last fall and won a game for Chicago against Philadelphia, was the Robins' shab artist and outside of issuing nice handouts and having seven errors made behind him, did all right. He held the locals to four safeties which yielded six counters. The bright particular star of the game was a highly cultured gent, Triplett by name, who pretended to play second. He mis-told the game for association football and scored four goals, though his name calls for a limit of three. Trip, certainly got in bad and was replaced by Jones, or probably he would have set up a world's record.

The Hospital List

Bill Lussit and his wife in the third and was replaced by Deacon. George Ferguson was taken out and replaced by P. J. Dell and J. Starkell. Dell did good work but Starkell had a bad case with his fellows who had the upper hand in his work.

Visitors' Score by Innings

A walk, a sacrifice and a hit in the third sack gave the Robins a run in the first while Edmonton failed to score, even though Mills was on third with only one out. Lussit hit to left for what should have been a sacrifice fly but Mills left the bag too soon.

Grady and Quigley threw the visitors out at first in the next innings. We got men on first, second and third with only one out, only to have Mills and Baxter knock flies.

Comedy of Errors

The third inning, for general justice, made everything that had gone before seem like the acme of grace and elegance. Pitcher Brown learned into an out-of-control for three bases, and Triplett fled to Spencer. Chesty made a dandy catch in right off Irbly and then the anchor rope was cut. Crocker walked and Hurley rolled a puny grounder over third base, scoring Brown. Davis singled to left and Hurley batted the ball in a nor' by south-west direction, the material being that Crocker and Hurley scored. Bill grounded.

A young double play by Moose Baxter killed off the Robins in the fourth, after Dell had replaced Grady on the mound.

Eskimos Get Busy

Brennan drew a pass in the fourth and was sacrificed to second by Cox. Dell sent a grounder to Hurley for the second out and things looked dubious. But the bleachers got to Brown and Mills walked. Old reliable Moose came forward with a beauty single to right, sending Brennan home with the first run. Pete Morse caused a groan of disappointment by fanning out.

Hits by Irbly and Hurley gave their visitors the fifth and as it turned out, last run, in the fifth. Hurley's effort was nearly gobbled by Chesty, but took a hard curve.

Trip the Tripper

One of the old-time rallies took place in the fifth, when singles, two baggers, sacrifice flies and errors by Triplett and Davis, allowed the Eskimos to tie the score.

MR. TRIPLETT WAS THE STAR

One of the old-time rallies took place in the fifth, when singles, two baggers, sacrifice flies and errors by Triplett and Davis, allowed the Eskimos to tie the score.

Deacon, batting in Lussit's place, opened with a clean single over sec-

and base and Spencer sent a teaser to Triplett which this gentleman kicked in the car. Quig, singled to short-stop and there was a pass in every corner. Brennan gave Bell a chance to extinguish himself, said chance being duly taken. Deacon served up bases still full. Chesty hit to Davis and Stub was nailed at home for the first out but Quigley scored soon after on Slim's sacrifice fly to right. With two runs already in, Mills hit for two bases, scoring Brennan and Cox. W. B. Baxter at the bat, Mills then tried to steal third and was grabbed.

Bell and Elsy both made first in the sixth but were caught out on bases. Elsy in an attempted steal of second and Bell, when he tried to beat Chesty's perfect throw to third.

The Winning Run

Brown was very wild in the sixth and as a starter, walked Baxter and Morse. Deak next up, sacrificed the runners along a peg and Spencer's sacrifice fly allowed Moose to score the winning run.

The remaining three innings were featureless.

A WAIL FROM CALGARY

The following comes from the columns of the Calgary Albertan:

"During the present season three players have been suspended from the game, and two of the three have been Edmonton players and the third was not a Calgary player, and the Edmonton papers have been busy with the Bill Carney! What hell if any one of the Calgary players was one-fifth as much of a rowdy on the field as about 200 brutal rooters on the bleachers he would be banished from the game for the rest of his natural life. The idea of a newspaper which sits by daily and hears the blackguardly rooting of men who have no respect for anything on earth, who make a specialty of reminding a pitcher if he has a glass eye and call it humor and then complain of the rowdism of a ball player, is enough to make the angels weep, surely."

It is just about this time this lie about the Edmonton fans was nailed to the mast. No Edmonton fan ever made fun of the infamy of any visiting player, though Carney has been most unmercifully hooted, and deserved everything. The first reiteration of the "glass eye" gag on the part of the Albertan goes sickening. As for sportsmanship, a team that will run up 27 runs against crippled adversaries has no business to kick if it occasionally gets abused.

SACRIFICE HITS

The list of injured in the evening was both heavy and serious. Moose Baxter: 1 finger, Umpire Ferguson, 1 back.

Manager Davis got in bad with the fans by refusing Mills a runner. It was reminiscent of the highly-cultured Bill Carney.

The injury to Lussit's ankle kept him out of the game in the evening. Moose Baxter made four nice grabs in centre (in spite of a bad finger) while old Deacon, the Peerless Leader, held down first in his usual finished manner.

Some of the fans mistook Irbly for Davis when the former came to bat and Hickey received a perfect degree of abuse.

Morse and Quigley took kindly to Mr. Smithson's offer of the "latter" but drew three hits out of three times up, while Pete had three in four. He also stole two racks.

The visitors' men bats quickly went overboard. At least six were broken in the afternoon, during batting practice and the game itself.

Slit Dell pitched fine ball in the afternoon. He strikes out more men on an average than any other pitcher in the league.

FUSILIERS HAD WORK AND FUN IN THE CAMP AT COOKING LAKE (Continued from page one.)

that parolled the camp. A guard is supplied each day by different companies and prizes for the smartest guard during camp are being given by Col. Edwards.

At 6.30 everyone was glad to hear the call to supper and for a while the needs of the inner man were thoroughly looked after.

Supper over, there was a variety of things to do. Some went for a swim, others went out on the lake in canoes, while others again, less adventurous, preferred to lie in their tents and smoke their pipes in well earned peace after a busy day.

Around the Camp Fire.
Towards 9 o'clock a bonfire was lighted, one of the kind that is known amongst bushmen as a "teepee fire," as it is built after the manner of a teepee. Around this fire everyone gathered and Mr. Wilson, who spent to years in South Africa and went through the Boer War with the

Inneskillen's to which he belonged, gave an exceedingly interesting account of his experiences in the fighting at Spion Kop, Colenso, Belfast and numerous other battles. He was one of the columns that marched to the relief of Ladysmith, and told of several amusing things that he saw there—one man, he said, was careered around in an old sugar satch, in lieu of trousers, with "80 pounds" written across the back, while another had bits of an old biscuit bag in place of patches.

His account of the battles delivered was a well connected story and told in a simple way, was wonderfully realistic, keeping everyone extremely interested until it was time to turn in, when "God Save the King" was sung. Everyone was turning to go to their tents when the soft strains of "Abide with Me" played on a cornet by Capt. Watt, arrested their attention, and all turned back to sing the well-remembered hymn before going to their beds. Shortly afterwards, crisp and clear came the notes of the "Last Post" gradually dying away with an echo across the water. Then the "Lights Out," and the day was over; the ever-busy adjutant say-

ing a midnight visit to the guard tent and the turning out of the guard as is the custom, being the only sounds that broke the stillness of the night.

Sunday in Camp.
Reveille—sharply—out the bugle call to get up and soon the camp was alive under the strict rule of military discipline, which prescribes that at 5.30 a.m. the regiment shall arise and begin the day. A swim in the lake made everyone feel fresh and fit for anything. Breakfast at 7 o'clock, and afterwards each man was busy cleaning his accoutrements for the tent inspection which took place at 9 a.m.

At 10.30 a.m. the express arrived, and large numbers of officers and men who were able to go down with the regiment on Saturday. Visitors, too, arrived, and amongst them a few ladies, and camp began to take on quite a gay appearance. Shortly afterwards came church parade, the whole battalion forming two sides of a square, with the lake for a third side, and on the fourth the chaplain, Dr. Riddell standing by the drums which were piled under the flag pole, at

the top of which was flying the Union Jack.

The service opened with the hymn "Lead Kindly Light." Prayer by Dr. Riddell and again another hymn, "Nearer My God to Thee." The lesson for the day from Ephesians 6-8 was read by Colonel Edwards.

Dr. Riddell preached on the "Problem of Living," religion being the solution of the problem.

After a short prayer the closing hymn "Onward Christian Soldiers" was sung, the band played "God Save the King," the litanies standing at the salute, and the service was over and the regiment dismissed.

Fun For the Men.

When dinner was over the afternoon was given over to amusement. Several owners of motor boats on the lake sailed round to the camp and took parties out with them for a sail. Some went out in canoes and others preferred to go out as naturals made them. There is an excellent beach for bathing, quite close to the camp, so that those who take to water like the proverbial duck, can indulge in it to their heart's content.

The water is warm in the lake, and it is possible to stay in for quite a long time without incurring the risk of a chill.

From 3 o'clock to 4.15 p.m., the admirable band of the 101st, under the leadership of Capt. Watt, gave a concert on an impromptu bandstand opposite the officers' quarters.

Amongst the numbers played was "Good Night, Beloved" (Pissini), selection from grand opera, waltz "Mia Cara" (Bucolossi), and waltz "Over the Waves," quickstep "Victory," and march "The Flag of Truce." The band is but a newly organized one but there can be no doubt of its excellence, and when it is a little older it will be a really first-class military band. It shows the signs that greatness is being taken over its training, but at present lacks the unity that goes to make the perfect band. The rendering of the waltz selection seemed to lack rhythm but the waltz "Mia Cara" was really good.

Six o'clock came and it was found that a large number of men were compelled to get back to town for work on Monday morning, and accordingly formed up and marched off to the station. At no time during the camp, except on Sunday, when military regulations could be carried on, was the whole regiment in camp at the same time. With this shortage of men it is difficult to carry on any extensive manoeuvre, and it is a great pity that employers in the city are not able to spare what assistants they have that do belong to the militia for the day and a half which is the maximum of time they would miss if they attended the whole camp.

NO WORK, NO FOOD, AT CAMBELLTON

Those Who Won't Work Can't Eat—Everybody Must Help

THIEVES ARE VERY BOLD
Bridle Stolen From Soldier's Horse—Much Furniture Gone, Too

Cambellton, N.B., July 17.—In a remarkable manner, seemingly, and with astonishing rapidity under the circumstances the fire-swept and desolate town of Cambellton is rising from its ruins. Order is being established, and almost everywhere is lending a helping hand. The cases of suffering and desolation are gradually disappearing, though they are still only too painfully in evidence. Busy scenes of activity in various forms are presented on all sides and as a result of the industrious effort of the homeless people and particularly a great many shacks have been erected. The poor people can find ample provision and so far as possible, considering their unfortunate situation, they are comfortable and apparently contented with their lots.

Men Refused to Work.
Several sales were due out of the ruins to-day, and in most cases none of the valuables they contained were even secured. It is a difficult matter to secure workmen as labor is very scarce, and high wages are demanded. Some of the men refused to work in the relief station or to assist in the pitching of tents unless they were paid. In cases where the secured relief station was taken over. When possible their names were secured and they were deprived of free provisions. This was the case with other citizens who commented on the quality of some food and clothing. One woman who refused some clothes which were second-hand, apologized profusely later and was glad to accept them.

Thieves Are Bold.

Boldness of the thieves was shown this morning when a military bridge was taken off the horse owned by Major Mercereau while it was standing in a shelter. Yesterday the horse which the major was using was taken. Last night the promptness of a sentry prevented the theft of a wagon and horse which was being driven towards Tiohous. Loads of furniture which were taken across the river at the time the fire was raging are now reported to be stolen. The adjustment of the insurance will probably commence to-morrow. In fact, some claims have been settled. F. J. Murray, of Cambellton who represents the companies who control about half or more of the insurance on the destroyed property, said to-day that most was held by the lumber companies and other large concerns and only about 25 per cent by the poorer classes.

This afternoon the fire engine of the town was put at work in an effort to extinguish the fire, which is still burning in the coal-burn owned by Mr. Murray and valued at about \$10,000.

G.T.P. BRINGS IN STRIKE BREAKERS

At Least Eight Hundred Have Been Brought In From Chicago

Port Huron, Mich., July 17.—Within the past 48 hours the Grand Trunk railroad officials have rushed strike breakers to every point on the line. The movement has been conducted quickly, and but for the fact that the Canadian Immigration officials turned back too many this noon the matter would have not become public.

Forty strike breakers are stationed at this point and 150 went to Detroit at noon in charge of lieutenants. It is expected that the strike order which will effect the employees of the Grand Trunk of the Chicago division, will be read at a meeting of the trainmen and switchmen to be held to-morrow morning at 8 o'clock.

The men who were turned back at the Canadian border were later sent to Detroit and will endeavour to enter Canada from that point. The strike, if it goes into effect, will include passenger and freight conductors and brakemen, switchmen and baggage-men. The strike-breakers have been recruited in Chicago and it is estimated that at least 800 of them have been forwarded to the various Grand Trunk points within the past 48 hours.

NO SALE THIS YEAR
U. C. Potts announces there will be No Sale of School Lands.

Calgary, July 17.—F. C. Potts, of Brandon, Man., valuator of school lands in the western provinces for the department of the interior, was in the city last night, and leaves this morning for Lacombe.

Mr. Potts said that with the exception of possibly one at Edmonton, no public sale of school lands will be held in Alberta this year. It was the intention of the department to hold a sale at Camargany, but under the circumstances attendant on the crop, it was considered advisable to postpone it until next season.

There were ten sales in Saskatchewan this year, the land bringing an average price of \$14.25 per acre. The sales in Alberta averaged about 50 cents per acre higher than those in Saskatchewan.

The crops in the Brandon district and throughout Southern Manitoba, it is said are light this year, but as the farmers, as a rule, are in comfortable circumstances and have other resources, they will not feel the partial crop failure so much as those of a newer country.

SUNDAY SCHOOL CONFERENCE.

Mid-Summer Tour Party at Nanton Meetings Held.
Nanton, July 16.—The Sunday school mid-summer tour party visited town yesterday. The meetings were held in St. Andrew's Hall, and the attendance was good. Over forty people attended the morning session and about 100 the afternoon. The temporary illness of Miss Paik was a disappointment to the people, but they were delighted with the helpful work of Professor Henry George S. Dingle and General Secretary Kemp. There were several very helpful conferences. Sunday school music, missions and general work received due prominence. Mr. Kenny told of the world's Sunday school convention at Washington, and Rev. E. S. Bishop conducted an inspiring equipment service. The whole Sunday school work of the town has received a decided impetus to-day through these services.

STRANGE WRIT ISSUED

Ottawa Man Claims He Was Prevented from Rescuing Son.

Ottawa, July 16.—A writ for damages was issued to-day by Alex. Proulx, of Hull, against Foreman Mack, on the ground that he prevented the complainant by force from taking the body of his young son from the Ottawa River while life was still in it, although supposed to be drowned.

An action has also been filed against the city of Hull on the ground that Constable Campeau also interfered with Proulx.

One of the men who recovered the body stated that Proulx did not arrive on the scene until over an hour after it was recovered and that the boy was fully fifteen minutes under water.

PARKIN OF CALGARY IS ONCE MORE A FREE MAN

Released by St. Paul Authorities He Will Work With Salvation Army

St. Paul, Minn., July 18.—A. N. Parkin of Calgary, Alberta, who has been held since May 14th on the charge of defrauding a hotel, was released from custody on his own recognizance yesterday. His case was continued to July 17th, but for some reason was disposed of two days in advance of the time set for hearing. Parkin is said to have given sight drafts to the Radisson hotel, Minneapolis, and also to W. T. Tait, proprietor of the Radisson hotel in St. Paul, for which he was arrested. The checks were drawn on Canadian banks in Winnipeg and at the time of his arrest he claimed to be personally known to prominent persons in the province of Alberta.

The bankers of Canada refused to appear in St. Paul to prosecute the defendant, and the authorities here were helpless, and there was nothing to do with release him.

With Salvation Army
His case was continued to November 1st. The defendant, practically a free man, He told the county attorney that he expected to receive employment from the Salvation Army and promised to go to work and pay his indebtedness to Mr. Tait.

INNISFREE WANTS A FARM COLLEGE

Will Ask Government to Locate Agriculture College There

(Special to The Capital)

Innisfree, July 18.—That Innisfree can offer the best location and the best advantage generally for an agricultural college, is the unanimous opinion of the population of this town, and with that end in view a deputation of citizens is shortly to visit Edmonton and confer with Hon. Duncan Marshall, Minister of Agriculture.

Offer Two Hundred Acres

The site which is offered by the town of Innisfree is located on the north shore of Birch Lake, a sheet of water endowed with much scenic beauty. Altogether 200 acres of land could be placed at the disposal of the government. Of this 120 acres belong to the Dominion Government, and 80 to the Canadian Northern Railway. When Innisfree is incorporated a clear title to all this land will be received. The land slopes from a height of 30 feet above the level of the lake to the beach.

Prominent in the movement to secure the college for this place is Mr. James Hunter, who was many years ago associated with the founding of Guelph (Ont.) Agricultural College.

UNIQUE METHODS

Unique methods result in unique successes—that is if the methods are unusual.

The other day a Western manufacturer sat in a grill room of a certain Philadelphia hotel with two of his district representatives. The three had ordered drinks. The manufacturer gave the waiter a dollar and allowed a quarter of the change to remain on the service plate as a tip. The waiter took up the quarter and placed 15 cents in its stead, politely explaining to the party that a ten cent tip was enough for drinks. All three men ceased their conversation and looked at the waiter in paralyzed astonishment. That night two of the men had dinner at this grill room at this particular waiter's station. He was offered a dollar tip when the meal was paid for but calmly gave 50 cents of it in change.

Several days later when this manufacturer returned to his home in Chicago, he found a neatly composed type-written letter on the very best of stationery, and signed by the proprietor of this hotel in Philadelphia, which thanked him for his patronage and hoped that everything was satisfactory and finally soliciting his future patronage.

Now this particular manufacturer was considering a location for a convention of his salesmen and complex the incident of these two tips, together with the letter he had just received, caused him to decide in favor of Philadelphia, and this particular hotel.

A very few days ago the proprietor of this hotel received a check for \$1,000.00 from this particular manufacturer in settlement of one week's accommodations for his men.

ANNUAL SALE

of imported Wash Dresses, Suits and Coats

Purchased at exceptional advantage by our Mr. Ludwig recently in New York, enabling us to make correspondingly low prices. Particular attention will be drawn to the exclusiveness and qualities of this selection.

Come and see.
(Note full window display.)

\$20 Coats \$10⁹⁵

The most practical garment in our varied assortment of goods just received is a PURE LINEN coat made for the Aeme specially. We mean by that that it is not sweat shop made, but to order for us exclusively. There are other linen coats offered for sale around town, but they do not have the snap and go of these garments. Always bear in mind that good workmanship pays. Make your selection now and do not wait until your friend has the garment you ought to have had.

The coat in question is natural and blue linen, full length, semi fitted with round shawl collar and reverses lined with all shades of linens—brown, baby blue, black and white check. Some have buttons to match trimming, others have large brass ones, others are military style with collar reversible, tight fitting, very severe but with a distinction all its own. Cannot be duplicated in Edmonton. Sizes 34 to 42. Reg. \$20.00, SALE..... **10.95**

(Second Floor)

\$12⁵⁰ Suits \$7⁹⁵

Last consignment of Wash Suits in Crewel, Ramie cloth, Regg and linen cravat just received. The coat is severe tailor made with touches of blue, mauve or black and white check on collar and cuffs. Some of the skirts are plaited, while others are plain with an inverted plait at back to give proper fullness, sizes 34 to 42, in shades of natural linen and white. Reg. \$12.50, SALE..... **7.95**

Special fancy wash suits in mustard shade of flanne cloth made with lace and bands of material to match skirt. Skirt is gored with strap of same cloth to form V's on seams, finished with wide insertion also forming V's. All is very pretty and lacy. Reg. \$15.00, SALE..... **8.75**

(Second Floor)

\$6 Dresses \$2⁹⁵

Outing and vacation dresses. Linene dresses in shades of blue, pink, natural linene and white. Very nicely made, skirt gored with side plait at each gore. Waist has a V shaped fine tucked yoke with two inch insertion to form turnover collar, finished with two embroidered tabs that cross and fall to waist line, high collar, three-quarter sleeves with dainty little embroidered cuff. The whole combination is very neat—just the dress one longs to own in vacation time, the all round serviceable article. All sizes Reg. \$6.00, SALE..... **2.95**

Bayles is third with nearly that amount. Bowen, of Ottawa, an unattached man, is the only Canadian who has not yet figured on the prize list.

REV. H. B. GRAY, D.D. IS VISITOR HERE

Famous English Educationalist Talks on Reform Methods in Old Country

A distinguished visitor in Edmonton is the Rev. Herbert B. Gray, D.D., president of the educational branch of the British Association for the Advancement of Science, and president of Bradford College, Berks, England. Dr. Gray is looked upon as being in the foremost ranks of British educationalists, and was a member of the Mosely commission which came to America to study American and Canadian methods of education in 1903.

Dr. Gray is an educational reformer, and is greatly feared by many of the old school in the old country on account of his decided views on the subject of education. He does not believe that education is based upon the two dead languages, as is the popular belief among the rural clergy of England who declare that if his views were adopted the position of the church would be endangered. Dr. Gray is an admirer of the Canadian and American systems, and says that while Great Britain leads in the study of classics, yet America leads in educational spirit. In the old country education was considered a bore while on this side of the Atlantic it is termed "the one national asset."

Dr. Gray owns a ranch of 3000 acres in south west Alberta, situated in the foothills. During the last year or so, he has brought out a number of youths from the old country and has placed them on his ranch, where they might learn the principles of farming.

Dr. Gray's present trip to Canada

is for the benefit of his health, and it is probable that on that account he may be forced to resign his position as president of Bradford College, and on the advice of his physicians, he may reside permanently in the west.

NOTHING TO BEAT BRITISH GOVERNMENT

Laurier Makes Brilliant Speech at Somerset, Province of Manitoba

Winnipeg, Man., July 17.—The whole town of Somerset, Manitoba, waited at the station on Saturday in order to give a fitting reception to Sir Wilfrid Laurier, and when the Premier arrived there was such a scene of enthusiasm as seldom has been witnessed in the little French town. Sir Wilfrid paid a high tribute to the English system of Government. "I appear before you," he said, "not as a Frenchman, but as a Canadian in the fullest sense of the word. This land of ours, under the British Constitution, is a land of freedom, of happiness, of prosperity. It is our privilege to live under British institutions and it is my duty to say to you, my fellow countrymen of the French language, that under the sun, there never were such institutions as British institutions for the government of men. They are the freest of all, and it is our boast that the sun in its daily course does not shine upon a more happy and free country than this land of Canada."

Railway Construction

Hon. G. P. Graham, minister of railways and Canals, made some important pronouncements upon the subject of transportation in Canada.

"The work of completing the transportation facilities which this country needs is only beginning," he said, "We have a route from ocean to ocean in the form of the Canadian Pacific railway. When that was first constructed some people thought there would not be enough business, but the business came rapidly. Now there is the Transcontinental railway, and that will be constructed from ocean to ocean in a few years time. Then there is the Canadian Northern railway, and that will also be completed from ocean to ocean before many years pass. You will then have three lines running from the Atlantic to the Pacific, and I am optimistic enough to believe that when those three are constructed there will be a

cry for another transcontinental railway."

Harbor Will be in Manitoba
The Minister of Railways also made an important reference to the Hudson Bay railway. "What we have done this year," he said, "will not defer the rapid construction of the line. The only difficulty is to ascertain which is the best harbor, Churchill or Nelson. Whichever it is it will be placed in the province of Manitoba. We have sent two vessels to the Hudson Bay to investigate the harbors, and as soon as we get their reports that road will be rushed through with all possible speed. So that in the near future you will not only have railways running from east to west, but you will have the benefit of a line of your own in Western Canada to carry your goods from the heart of the west straight to the markets of the old world."

THOUSANDS VISIT SCENE OF MURDER

Morbid Curiosity Draws Many Londoners to Crippen's House

4 MURDERS LAST WEEK

And in Each Case Police Have Not Located the Murderer

London, July 18.—Hilldrop, the residence of Dr. Hawley H. Crippen, in the cellar of which the mutilated body of a woman was found early last week, was visited yesterday by thousands of Londoners. All day long the house was the centre of attraction for great crowds of people interested in the operations of the police which have been renewed in the hope of finding some clue.

Friends of Mrs. Crippen are convinced that the body which is now awaiting the coroner's inquest will prove to be that of the missing singer.

Not Proved Identity Yet

The nature of the report of the physicians who have made an examination of the body has not been disclosed. Whether it will be possible to prove the identity cannot be told until the evidence is placed before the board of investigation.

Apparently the police have made little progress in the case. During the latter part of the week there has been a remarkable series of murders, at London, Newcastle and Slough and Cromer, and in every case the murderers have escaped.

A Nameless Individual Perpetrates the Following Hash of Bad Puns

The game opened, Molasses sticking fine. Smallpox catching. Cigar was in the box and had plenty of smoke. Horn was playing at first base and Fiddle was playing at second base. Corn was in the field and Apple was umpire. When Ax came to bat he chopped and Cigar let Brick walk, and Sawdust filled the bases; Song made a hit and Twenty made a score. Every foot of ground kicked and said Apple was rotten. Balloon started to pitch and went straight up. Then Cherry tried it, but was a wild one.

When Spider caught the fly the crowd cheered. Old Ice kept cool as the game went on until he was hit by a pitched ball and then you ought to have heard ice cream Cabbage hail a good head and kept quiet. Old Grass covered a lot of ground in the field. Organ refused to play, so Bread loafed and put him out in the fifth inning. Wind began to blow about what he could do, and Hammer began to laugh, then Trees began to leave. Kite was put out for cutting first base.

There was lots of betting on the game, but when Glass fell they went broke, so Soap cleaned up. They all kicked when Light was put out. The way they roared Peanuts was a fright. Balloon went up in the air when Figs began to root. The score was 1 to 0 when Apple told Fiddle to take his base. Oats was shocked. Song made another hit and Trombone made a slide but was put out. Meat was out at the plate—Lethbridge Herald.

JOHNSON FOR ALDERMAN.

Chicago, July 16.—The candidacy of Jack Johnson for alderman of the Third Ward is officially announced in the issue of the Chicago Conservator, a negro publication, owned and edited by Rev. A. J. Carey.

A caption, in large type, which reads as follows: JOHN ARTHUR JOHNSON FOR ALDERMAN OF THE THIRD WARD, spreads across

the front page, while the chief editorial column is devoted to the champion pugilist's interests. Editor Carey promises a battle royal between the white and black candidates at the next election, but predicts that Johnson will win.

According to Carey, Johnson has promised to stop practicing the two offences charged against him—prize fighting and auto racing. "So far as the First Ward keeps Hinky Dink and Bath House John in the Council no one can question the right of the Third Ward to send John Arthur Johnson, by far the superior of them both and of many others who have seats in Chicago's Common Council," says the editorial.

HERRMAN PICKS TIGERS

Detroit, Mich., July 16.—Garry Herrmann paused in his campaign for grand exalted ruler of the Elks today long enough to predict another world's series between the Tigers and the Cubs. Said he:

"Count on the finishing powers of the Tigers to get them in front again. Either Detroit or Philadelphia will win in the American league this year, and if it comes down to a duel between these two clubs Detroit every time for mine. Detroit is doing as well as can be expected at this stage of the game."

"You can count on Jennings drawing sharp pins over his team when the fight in the stretch is due. They've always come up that way and I guess they will this year. Their time for springing has not arrived yet. In the National league I think the Cubs will win the flag this year. Chance's team looks best to me. The Cincinnati club has a fighting chance for first place. The Giants may be contenders this year, but Pittsburgh is an outsider."

TRUE HERO WORSHIP

"Do you think your husband died happy?" "I haven't any doubt of it. He was killed by a foul ball from the bat of his favorite player."—Chicago Record Herald.

Triple's work on second base made the fans rub their eyes. They thought Dinny Maguire had returned.

One Want Ad.

Of Every Twenty is the Key to an Interesting Romance

The want ads. touch life so intimately—give reflection at such close range—that very often a few lines of classified advertising form the key to a real life romance as pathetic or as inspiring or as thrilling as could be "found in books."

Sometimes the want ad. is a link in the chain of the story—as a "readers' service" ad. often is. Another want ad.—perhaps offering something for sale which would indicate the dissolution of a home—may be the key to a pathetic story more interesting, if it could be told, than any fiction. Some other "for sale" ad. may suggest a well planned number of "volunteer" adventures of Mr. Pickwick.

To those who have insight, who "know" human affairs in this city in this year of grace, 1910, the want ads. are the BEST current reading matter. And, often, a want ad. reader who starts in to find romance clues is surprised to find clues to an amazing number of "volunteer" adventures of Mr. Pickwick.

About Town

A \$10,000 real estate deal took place last week when Bert Cardinal transferred to Messrs. Mm. Munroe, of Winnipeg, and John McIntosh, of Alexander, Ont., Lot No. 80, R. L. 8.

Early this morning, the death occurred of James A. Hurley, of 1431 Syndicate avenue, in the Public Hospital, the funeral will take place tomorrow at 1:30 to the Little Mountain Cemetery.

Mr. A. Laurendeau, in explaining the reason why his horse ran away on Jasper avenue, last Friday, says that the street sweeper was responsible, and suggests that that utility be kept off the streets during the busy hours.

A midnight blaze, of small proportions, on the northeast corner of McDougall avenue and Clara street, occurred last night. The building was a dwelling owned by Wm. Munroe, of Winnipeg, and tenanted by Wm. Ask. The origin of the fire was unknown, it being discovered by Bert Cardinal, who turned in an alarm. The lower floor of the house was badly demolished before the blaze was under control.

A banquet for the former residents of the Maritime Provinces now residing in Edmonton will be given to E. M. McDonald, M.P.P., of Pictou, N. S., and probably Hon. W. S. Fielding also, who is expected to be present on the occasion of his visit to Edmonton with Sir Wilfrid Laurier next month. A meeting of all interested is called for this evening at 8 o'clock in the office of McKimmon & Cozwick.

A fire broke out at 12:40 a.m. this morning at the home of D. J. Munroe, 104 Clara street, which is at present occupied by William Asher. Nos. 1 and 3 stations, answered the call from Box 45, but the call which was sent some while after the fire started, did not bring the firemen in time to save two of the rooms which were gutted. It is not known how the fire started but it is thought that as the occupant was leaving the house and more than half of the furniture had been removed, that some one had

Jack! How is it that Mrs. Brown can get a quiet horse and drive her lady friends and you cannot get one safe for me. Well, my dear, Brown

entered the house to sleep there and had accidentally started the fire. The house was insured for \$1,000.

On Saturday the gasoline stove in the tin covered shack at Happyland, Fifth and Jasper, went on fire. Numbers 1 and 2 stations responded to the alarms sent in but the blaze was very small and had been extinguished before they arrived.

The second round of the open singles of the Edmonton Tennis Club tournament is to be played off before next Saturday and the handicap singles before the following Wednesday. Competitors will kindly arrange their matches accordingly.

Personal

Mr. and Mrs. McCaig are holidaying in Lezhbridge.

J. L. Cote, M.L.A., leaves this week for a trip north.

James McKimmon has returned from a three month's visit in Eastern Canada.

Misses Annie and Sarah Kline are spending their vacation at Vancouver and Seattle.

The Rev. Robert Jefferson, of Christ church, Seventeenth street, left for Wabamun today, where he will spend a month's holiday in camping.

E. H. Turnbull, London, England, managing director of Canadian Townships, Limited, is a guest of the King Edward Hotel. The company which Mr. Turnbull is connected with was formed for the purpose of investing in lots situated in new towns. Mr. Turnbull left this morning for Edmonton where he may purchase some lots.

SUES THE BULLETIN AND JOURNAL FOR \$20,000

John Morris Charges Newspapers With Libel and Asks for Damages

Two libel suits, claiming \$20,000 each against the Bulletin and the Journal, have just been filed in the Supreme Court by John Morris, McDougall avenue, for publishing in their papers details of an action that they alleged would be taken against him and Gabrielle Bregat, of Fort Providence, by George W. Waggon, Morris' agent, in connection with the alleged forgery of the transfer of Lot 9 Block 6, Norwood.

The Journal, in their evening edition of Wednesday, July 6th, state that: "The property was purchased by Waggon on March 1, 1909, from Sidney A. McDougall, for the price of \$40, and the transfer was given to Morris for registration and to be deposited in the Land Titles Office. Between March 9 and June 9, it is alleged, Morris, without the knowledge or consent of the plaintiff 'altered' the document in several particulars."

The allegation is, of course, denied in its entirety.

Messrs. Short, Cross & Biggar will act for the Bulletin and Dawson, Hyndman & Hyndman for the Journal. The case will not have a hearing until the re-opening of the courts in September.

MORE SETTLERS ARRIVE

Publicity Department Brought in a Trainload of Them

A government chartered train arrived in the city Saturday afternoon, having on board a large percentage of 300 settlers representing the best type of the farming community of Ontario, in charge of Fred W. Brown, publicity commissioner for the Province of Alberta, in Toronto. The party left the banner province last Tuesday, and are now distributed throughout Alberta, about 100 of them locating between Calgary and Edmonton.

Fifty per cent. of the number are well placed financially, and are able to purchase farms and begin operations at once. The remainder will homestead along the route of the C. N. R. east of Red Deer River.

DE LESSEPS FLIES AGAIN

Toronto Aviation Meet Ends in a Burst of Glory

Toronto, July 17.—The aviation meet concluded last night. The crowds were small owing to the dampness after the rain. Ralph Johnson, in a Wright biplane, gave a wonderful exhibition of control. He executed figure eights, and did some great gliding. While Count de Lesseps in his monoplane La Scarabe was 900 feet up, Frank Coffey went twice around the arena at a height of 60 feet. The count mounted to a height of 1,500 feet. At 1,000 feet he shut his engine and made a dangerous glide to within 300 feet of the ground, when he restarted his engines.

Thousands and thousands of dollars worth of the highest grade of furnishings and shoes obtainable in this wide world of ours going at prices commanding immediate riddance. We advise early forenoon buying if at all convenient, as it will be almost impossible to get proper attention afternoons and evenings owing to the great masses of people who will no doubt take advantage of the great distribution of WILLIAM SUGARMAN'S big \$40,000 stock.

BESHEARS BROS., Spokane and Calgary, Officially in charge
